The fee for connecting a temporary meter in an existing meter box shall be one hundred dollars ( \$100.00). The Gonzales County Water Supply Corporation Temporary Meter Connection is designed to provide water for testing of plumbing and on site sewage facilities only. The length of time for a temporary connection is fifteen (15) days. The meter shall be disconnected after fifteen days and a new temporary connection form may be completed and the appropriate fee paid for any addition period.

The undersigned shall be held liable for all water used at the temporary connection. The above referenced credit card shall be billed at the end of the fifteen day cycle for the actual water used. The rate shall be the current rate for metered water in effect at the end of the fifteen day cycle and shall not include the availability fee.
